TCI SOLDIER EARPIECE SYSTEMS

TCI SOLDIER TACT-LITE™ EARPIECE SYSTEMS > TCI has been manufacturing high-performance, professional-grade tactical earpiece solutions since 1996.

TACT-LITE™ Earpiece Systems are designed to work in conduction with Remote Speaker Microphones to enhance communications capability, enhance operational safety of the user and minimize the chances of critical communications being missed due to background noise or other distractions. TCI earpiece systems connect with various popular Speaker Microphone models. Once the earpiece system is connected, the external speaker mic the speaker microphone is muted and high-quality audio from the radio is delivered directly to the ear canal. This is accomplished through various connector, ear-coil and ear-insert selections. *TACT-LITE™ Earpiece Systems have be the choice of professionals for many years!*

Specific Product Options:

- **Ear-Insert Options:**
 - Non-Occluding TACT-LITE™ Earmold: Sizes Small, Medium, Large or X-Large
 - Sound-Attenuation Ear Insert: Designed for High Noise Situations (NNR: 21)
- **Ear-Coiled Options:**
 - PRO-Series Clear/Coiled Acoustical Tube—Low-Profile and Cost Effective (Photo Left Above)
 - Soundwaves/FC R3H Ear-Coil—Excellent Longevity, Durability and Sound-Quality (Photo Right Above)
- **Connector Options:**
 - 2.5 MM Connector
 - 3.5 MM Connector
 - Threaded 3.5 MM Connector
 - *Speaker Microphone Model Determines the Proper Connection Type
